

Map(s)

RECOMMENDED - Map the location of the "covered" facilities, other facilities, facilities contributing to additional risk, facilities at risk, transportation routes, pipelines, and the population / area at risk as described on Attachments 1, 2, 3, 4, 5, 6, and 7. (NOTE: These maps, and other information related to the hazard analysis may also be maintained in a separate facility map / information index.)

MAPS ARE AVAILABLE THROUGH E-PLAN, THE RICE COUNTY BEACON SECURE SITE AND RICE COUNTY'S SECURE ARCGIS MAPPING PROGRAM. Hard copies of some of these maps are located in the EOC.

E-Plan provides Tier II reporting data and other important information instantly such as:

10. Facility Identification, Location and Contact Information,
11. Maps of the area surrounding a fixed facility showing schools and hospitals,
12. Maps of all facilities with a specified hazardous material in specific area,
13. Chemical Hazards Response Information System (CHRIS) data,
14. Material Safety Data Sheets (MSDS),
15. Chemical profiles,
16. Emergency Response Guidebook (ERG) pages,
17. National Fire Protection Association (NFPA) codes,
18. Facility Risk Management Plans (RMPs).

The E-Plan site is located at the following link: <https://erplan.net>
